

Autonomous RBI Compliance Report (PoC)

System Name:	Autonomous Multi-Agent Regulatory Intelligence (PoC)
Compliance Domain:	Multiple
Generated:	2026-01-25T21:29:39Z
Reference No.:	N/A

Executive Summary

Overall Compliance Status:	Not Evaluated
Total Obligations:	0
Total Gaps Identified:	0
Processing Time:	1822ms

RBI Circular Overview

Circular Title:	N/A
Official URL:	N/A
RSS Reference:	N/A
Effective Date:	
Applicability:	N/A

Extracted Compliance Obligations

No compliance obligations extracted.

Compliance Assessment

No compliance assessment data available.

Risk & Observation Summary

No risks or observations identified.

System Execution Trace

Execution ID:	EXEC-20260126-496
Workflow Reference:	n8n-rbi-poc-v1
Agents Involved:	RSS Scanner, Regulatory Interpreter, Compliance Comparator, Report Generator

Execution Time Breakdown:

Component	Time (ms)
Rss Fetch	300ms
Obligation Extraction	600ms
Gap Detection	520ms
Report Generation	400ms

PoC Limitations & Assumptions

Limitations:

- Keyword-based gap detection, not semantic analysis
- Single RBI circular analyzed per report
- Mock bank policy used for demonstration
- HTML content extraction may lose formatting

Assumptions:

- RBI guidelines extracted from RSS feed are complete
- Bank policy is stored in current_policy.json format
- Manual compliance verification required before regulatory submission

Conclusion

The PoC demonstrates automated RBI compliance extraction, gap detection, and audit-ready reporting through deterministic file-based processing.

Technical Feasibility: Confirmed

Next Phase Readiness: Ready for CBS integration, multi-circular scaling, and production deployment
